

PIRATE'S TREASURE CHEST

Materials:

Empty tissue box OR a paper mache box
Black construction paper
(or black paint)
Yellow construction paper
Printer
Scissors
Glue

Instructions:

Cover the box with black construction paper (all sides). Use enough glue that when we slit open the top the paper will stick.

Using sharp scissors or blade, have an adult cut around 3 sides of the tissue box, about an inch from the top (so the treasure chest opens). If using a tissue box, you will need to bend back the cardboard on the remaining, attached side so the chest opens and closes nicely.

Glue a piece of yellow or red construction paper, felt or tissue paper to the inside of the "lid" and chest (so it looks like a nice velvety lining)

Now comes the fun part! On the next page, print out the template of choice.

Color the pieces, as necessary and cut them out.

Glue the KEEP out warning onto the top (lid) of the chest

Cut 1/2 inch strips from yellow construction paper and glue them to all the edges of the treasure chest.

Printed from the template, glue the lock onto the front of the chest and the handles onto the sides of the chest.

OPTIONAL: Glue sequins, fake jewels or painted rocks onto the lid for a jewel encrusted treasure chest

OPTIONAL: Print the key template to have a key for your treasure chest. **You may wish to glue the template to some cardboard before your cut it out to make it more durable.**

Fill with gold coins (chocolate ones are my favorite!)

Please carefully read all instructions before beginning any project.

We make no guarantees or warranties for the outcome of any project or interpretation of instruction.

Most of all, we want to have fun making your projects!!

Thank you!
